

A report by the Trustees of Wardour Chapel Trust. All Saints' Day 2020.

Work done to fabric and contents

The following items have been repaired and restored:

Vestments

Reliquaries display cabinet

Mahogany doors to the Sacristy

Candelabra

Maintenance Work

Mothproofing of the carpet

Improved sound system

New tower scaffolding was purchased for internal and external work

Events over the year

Many of our normal services and events were curtailed because of COVID restrictions. Government guidelines were followed to ensure that we could open the chapel as soon as it was legally permitted and normal services continued within the guidelines after that, including funerals, the annual patronal feast day Mass, and a Christmas carol service. We were also able to host a cello recital.

Future projects

The cracking of plaster work in the dome above the altar has become more apparent. Trustees are stepping up their investigations on how to deal with this and how to raise money to address the problem.
